

AID AND INTERNATIONAL DEVELOPMENT COORDINATION THROUGH PUBLIC-PRIVATE PARTNERSHIP

Peiyi Wang BA(Hons) and Viet Le (Ph.D.)

**2012 International Development Conference:
Integrating Research, Policy and Practice
Auckland, 3-5 December, 2012**

**Faculty of Business and Enterprise
Swinburne University of Technology
Victoria, Australia
Presenting Author: Peiyi Wang**

Research Objectives and Questions

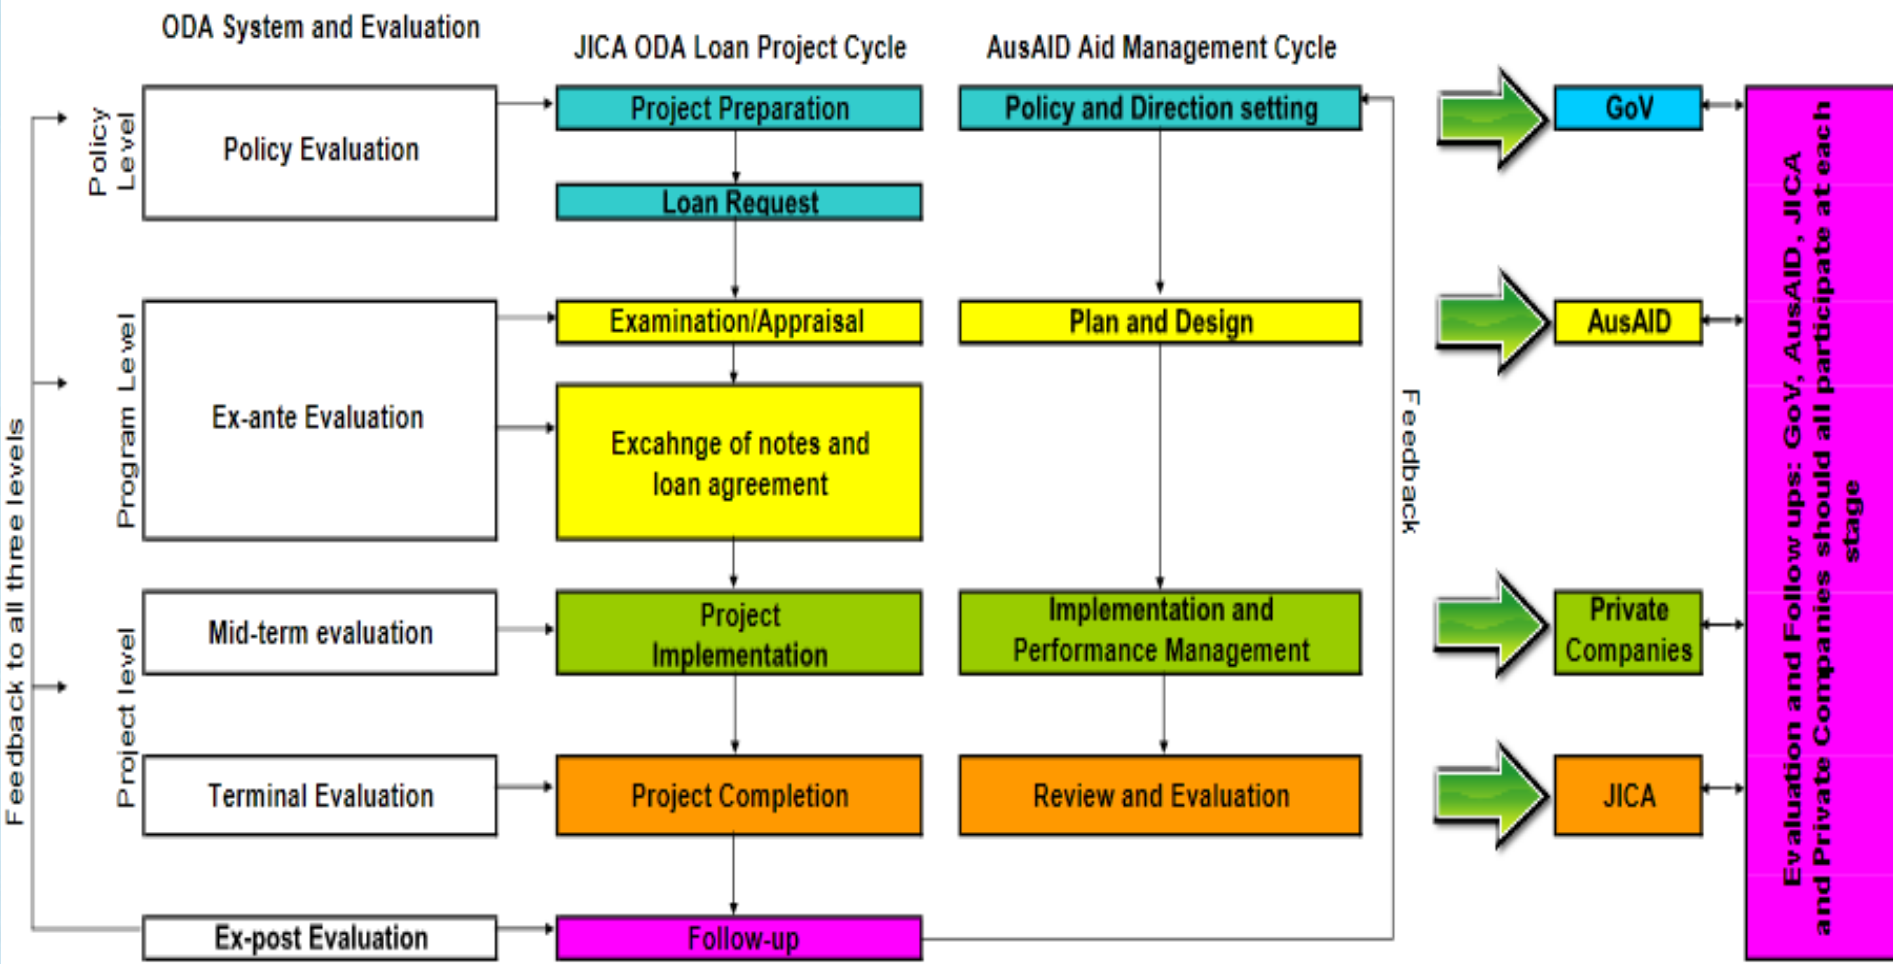

- i) How can Australian Agency for International Development (AusAID) and Japan International Cooperation Agency (JICA) improve coordination when delivering infrastructure projects in Vietnam?
- ii) How can Public Private Partnership add value to the scope of coordination between Australia and Japan in the areas of aid and infrastructure development?

Public Private Partnership

A globe is the background, showing continents and oceans. Overlaid on the globe are several white, stylized human figures holding hands in a circle, representing a global partnership or community. The figures are positioned across the globe, with some appearing to be in the foreground and others further back, creating a sense of depth and unity.

- Public Private Partnership
- Decision No.71/QD-TT
- 24 Pilot PPP projects
- Australian/Japanese/Vietnamese Companies

International Development Coordination
